

Call for Papers From Early Career Psychiatrists

We at *The Journal of Clinical Psychiatry* are pleased to announce a new section to encourage the academic development of early career psychiatrists. In this special section we will publish papers from early career psychiatrists that are deemed through the review process to represent excellent work from the next generation of researchers in psychiatry. We will consider original research and exceptional review articles for this section. Please submit papers for consideration in this section no later than March 1, 2008.

Eligible first authors will be trained psychiatrists with an M.D., M.D./Ph.D., or D.O. degree, are less than 5 years from completion of their training, and do not currently hold an academic rank higher than Assistant Professor.

Please submit papers through *The Journal of Clinical Psychiatry* Web site at www.Psychiatrist.com. During the automated submission process, please indicate in the cover letter and by checkbox that your paper is to be considered for the specialty section "Early Career Psychiatrists."
