Correction

In the article “Suicide Risk Assessment in Hospitals: An Expert System-Based Triage Tool” by Isabelle Desjardins, MD, and colleagues published in the July 2016 issue (*J Clin Psychiatry* 2016;77[7]:e874–e882), conflict of interest information for Drs Desjardins, Cats-Baril, Maruti, and Althoff was omitted. They are partners in WISER Systems, LLC, which, with the University of Vermont, has ownership rights to the Systematic Electronic Risk Assessment for Suicide.
